American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

78 State Street, Opposite Kilby Street Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—an Legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

Testimonials.

"I regard R. Eddy as one of the most capable and successful practitioners, with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, as I that is now pending. Such substantial proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the out faithful attention bestowed on their cases, and at very reasonable charges. Dr. William Smith's

DICTIONARY OF THE BIBLE.

It contains OVER ONE THOUSAND closely printed, double column octavo pages, four steel engraving plates, on good paper, and is elegantly illustrated with over TWO HUNDRED engravings on STEEL and WOOD, in a series of the authentic maps.

It is highly commended by all learned men, and by the press generally, throughout the country, and is the best book of its kind in the English language.

DO NOT BE DECEIVED.

Owing to the unprecedented success of this work a small English abridgement adapted to low priced readers, in close clear type, of about 700 pages, has been reprinted by another firm in larger type, and spread over 800 octavo pages, evidently—by making a book larger than its original—to give the impression that it is our edition. We have only been the juvenile edition, worth 50 cts. in Small Pica, of the English work, for sale in the American, at $2.25 per copy. Send for our circular, full particulars.

POETRY.

To an Intemperate Man.

O Drunkard! Drunkard! stop thy hand,
Why such a course pursue?
Against thy Maker's great command,
Why thus thyself undo?

Why sacrifice thy useful fame,
Thy children, friends and wealth—
Why to derision give thy name,
And why destroy thy health?

And why destroy those feelings warm,
Which man for man should hold?
Why almost change thy noble form,
To list' who grov'd of old?

And why destroy that much lov'd wife,
To whom thy vows were given,
To cherish her throughout thy life?
Those vows were mark'd in Heaven.

And why those mental powers destroy,
Thy God to thee did lend,
In useful efforts to employ—
Oh why perverst their end?

And why destroy that spark of Light,
That heavenly spark divine—
Why wilt thou sink in endless night
Your precious soul of thine?

Repent! repent!—'tis not too late;
To live and goodness live,
Though thy offences are so great,
Thy God may yet forgive.

NEWPORT DAILY NEWS.

FRIDAY, March 6, 1868.

BEGINNING OF THE TRIAL.

On Thursday the galleries of the Senate were crowded with spectators anxious to witness the first proceedings in the trial of President Johnson. Some doubt having arisen as to the course Chief Justice Chase would pursue, and there having been a report that he would not leave the Court, to preside in the Senate, that day, there was quite a feeling of relief when M. Pomeroy arrived, and said, in private conversation with other Senators, the Chief justice will adjourn the Supreme Court to preside over the Senate.

The Senate first considered the proposition for disposing of the seats in the galleries during the trial. Mr. Sherman and others advocated issuing tickets for a portion of the galleries and throwing the remainder open to the public. As one o'clock approached many members came from the House and several eminent lawyers came in from the Supreme Court. As that hour struck the doors were thrown open and Chief Justice Chase entered with Mr. Pomeroy. He was followed by Justice Nelson.

Mr. Wade vacated the chair and the Chief Justice took it. Each Senator was then called forward individually, by the alphabetical roll, and the following oath was administered to him by the Chief Justice.

"I solemnly swear that in all things appertaining to the trial of the impeachment of Andrew Johnson, now pending, I will do impartial justice according to the Constitution and laws. So help me God."

Although the rules do not require the Chief Justice to take an additional oath, yet, at his own desire, it was administered to him. It was thought Judge Chase might take exception to some of the rules adopted by the Senate for the trial, as in his communication, the day before, he expressed the opinion that they should not have been decided on until the Senate was organized as a Court; and that the presiding Justice should have the power of ruling and deciding as in a Court of Justice. These views were overruled by the Senate, and the Judge, in these preliminaries, appears to have made no objection to the course pursued. His functions are limited to the customary duties of a presiding Judge in deciding questions of order.

While the Chief Justice was administering the oath Mr. Justice Nelson sat at his right on the platform.

Mr. Wade took his seat as a Senator and when his name was called he started to go forward, but Mr. Hendricks objected to his being sworn, proceeding to give his reasons therefor.

Mr. Sherman insisted, as the colleague of Mr. Wade, that he should be sworn. Ohio was entitled to be represented in the Court by her two Senators. A Senator related to the person on trial by marriage had been sworn in, and no Senator should be challenged because he might be affected by the result of the trial.

Mr. Howard followed taking the same ground. Nearly all the Representatives were in the Senate Chamber standing in the space behind the Senator's desks attentive spectators of the interesting scene. Every seat in the galleries was occupied, but the aisles and doorways were properly kept clear.

Mr. Reverdy Johnson followed Mr. Howard, citing precedents why Mr. Wade should not be permitted to sit as a member of the Court, one of which was the recent case of Mr. Stockton. That gentleman was not permitted to vote on the question of his own right to a seat—a trifling question compared with the present, which involves the most important position in the United States.

Mr. Garrett Davis followed Mr. Johnson, arguing that the Constitution establishes the principle that no man standing in a position to succeed to the office of President is entitled to sit in the court.

Mr. Morrill of Maine took the ground that there was no one in court who could legitimately object to any members taking the oath when the court was organized. The respondent might object, but no Senator had the right to object.

Hendricks replied to an objection, that although Mr. Wade is now the presiding officer of the Senate, that body may any day elect some one else; but in that case he would become eligible as a Judge, but so long as the Senator from Ohio has a direct interest in the issue, he should not be sworn as Judge.

At the close of the first hour the Senators had not all been sworn in and it was quite apparent that the delay usually attending legal proceedings was to be employed in this case, and that questions and objections would be raised for the purpose of putting the decision as far off as possible, and to find out "how not to do it."

Cornell University.

We have received the first General Announcement of this new institution of learning which is to be opened in the beautiful town of Ithaca, N. Y., in September next. It was founded upon the United States grant of land for agricultural education, and the gift of $500,000 by Hon. Ezra Cornell, of Ithaca. The grant of land to New York amounted to 990,000 acres. Mr. Cornell, in addition to his original gift, expended $300,000 in purchasing the land scrip and locating the land. He had previously established a free public library in Ithaca at a cost of nearly $100,000.

The University is to be organized with six departments, viz: Agriculture, Mechanic Arts, Civil Engineering, Military Engineering and Tactics, Mining and Practical Geology, History, Social and Political Science. A portion of its buildings are ready and others are in process; and its faculty is arranged, and it is equipped for an immediate entrance upon its work. All the instruction is, so far as possible, to be made practically useful, with a wide range of studies among which the student may select his own course. Its professed aim is, to promote Christian civilization, without sectarian bias. Certain of the State officers of New York are *ex officio* trustees, and each Assembly district has the right of free tuition for one student. For others the tuition fee is $50 per annum.

The Abyssinian Expedition.

New York, March 6.

The *Herald's* cable dispatch of last evening, from London says that General Napier, Commander of the Abyssinian expedition, forwarded dispatches from his headquarters at Attegerai, which have just reached the War Office. He reports that he has advices from the Interior to the 19th of January, dated Magdala and in the camp of Theodorus on the 9th.

The captives were in good health. They had been given in charge to a strong escort of the King's army and ordered to be conveyed to the Fortress of Magdala.

The King moves slowly from his camp.

It was reported that the Chief Menelek had mustered a force and marched to give battle to Theodorus' troops.

Gen. Napier's information afforded no indication or clue as to the present war plans or ulterior designs of the King.

A special correspondent furnishes news dated at Anatolo, on the 15th of February. He states that the advance of the British army was within 15 days march of Magdala.

Gen. Napier met Kassai, the Tigsi Chief, on the 20th of February. The Chief made an offer of peace with the British for himself and his people, which was accepted by the English commander.

This proceeding was followed by a grand army review, at which Kassai and other native warriors attended.

Col. Merewether of the English army had previously treated an envoy of Kassai uncourteously, and the peace was doubtful.

The King's troops shot some stragglers from the Queen's force, and also put to death six Arabs. The bodies of all the dead were mutilated in the barbarous manner customary with the Abyssinians in time of war.

Three British officers were missing.

King Theodore was advancing from his camps at the head of 40,000 soldiers, but marched only three miles each day. Menelek, supplied by other chiefs, was said to have invested the royal stronghold of Magdala with 40,000 men;

News had been received from the captives at Anatolo during the previous week.

No forage was to be had for the cattle beyond Anatolo.

SCENES AMONG THE ANIMALS AT THE BERLINO OF BARNUM'S MUSEUM.—The N. Y. News says the monkeys were the first animals that became alive to the sense of their danger, and they set up a most horrible screeching, and jumped wildly about in their cages, throwing themselves against the bars and gnawing at them, and biting one another in the excess of their fury. The birds presently caught up the shrill chorus and fluttered about their narrow cages unable to find any exit.

The serpents also showed symptoms of fear amongst the first, and crawled and licked the sides of their glass prisons and emitted those peculiar hissing noises in which these animals demonstrate their fear. When the heat became so intense that the cages were shivered in fragments, they made a rush for the openings, but either got burnt, suffocated, or cut to pieces.

When the smoke descended to the lower floors, the larger animals, which had been startled by the wild noises up stairs, began to exhibit symptoms of fear.

All the beasts of the cat species seemed to understand their danger, and made frantic efforts to break the bars of their cages, but the others, called in technical parlance 'hay' animals, seemed overcome by fear and remained immovable.

For a time the roaring, screeching, bellowing, mewing, neighing, grunting, squealing was perfectly fearful to hear, and lasted for over a quarter of an hour. But then it suddenly ceased, and where before all this noise had existed there was only an occasional groan of agony wrung from some poor beast whom the smoke was unable to overcome, and who waited for the yet more terrible agony of fire.

By 3 o'clock all was dead within the museum.

On Tuesday night a bear appeared at one of the windows in Barnum's Museum in New York, causing a general flight of the crowd of spectators, many of whom doubtless remembered the excitement of the previous night, when a Bengal tiger leaped to the sidewalk from an upper window. One fireman, however, remained, and procuring a rope, formed a slip-noose at the end, with which he ascended the ice-covered ladder, and approaching the bear to within a safe distance, threw the rope with a view of lassoing the beast. But the latter, having escaped with a whole skin the terrors of a twelve hours' fire, had no intention of capitulating so easily, and accordingly, raising his right paw, he dexterously warded off the noose at each successive effort. The fireman gave up the attempt, and bruin fell back into the ruins. It was thought he was killed, but on Wednesday morning this same bear walked leisurely up from the basement, and gazing for a moment at the steam engine and firemen, started down Broadway. A large crowd followed, hooting and throwing snow balls at the terrified beast. Bruin attempted to enter the Metropolitan Hotel, but was unsuccessful, and after running some distance further, went down a basement and was captured. Had he gone into Wall street he would probably have created a greater panic in the stock market than the most famous "bear" in that sensitive neighborhood ever did.

THE LABOR MARKET OF THE NORTHWEST. A Milwaukee journal furnishes sundry statistics of the salaries and wages paid different classes of laborers and artisans at the West, and makes such statements as should deter any one who is tolerably situated at the East from hastily emigrating westward. It represents nearly all trades and professions as overstocked, and that of clerks as particularly so, merchants being approached daily by persons who are anxious to work for a bare sufficiency to buy daily bread. Nearly all the trades are also overstocked with workmen, and only bricklayers, in the building season, and printers on morning papers, are earning good wages. The great majority of salaried men, and mechanics and laborers, receive less pay in Western cities than is given in Eastern cities.

Rats cannot live in Alaska, because their holes freeze up, nor in St. Thomas, because their holes are turned wrong side out by earth-quakes.

About Home.

BUSINESS.—A visit to the Railroad station gives one the impression that it is not so very dull in Newport. After a through freight train arrives there is bustle enough to show what can be done by active men plying their trade. The barrows, this morning, rushed out of the depot and on to the steamer with great rapidity, loaded, among other things, with nearly all sorts of shovels that ingenuity could desire or make. There were quantities of long handled shovels, round pointed shovels, short gravel shovels, square garden spades, &c, enough, one would think, to dig up the prairies of the West, or clear out the coal-yards of Philadelphia.

REUNION.—Atlantic Division, Sons of Temperance, received a visit, last evening, from Winnisimmit and Excelsior Divisions, of Chelsea, Mass. The visitors, twenty-one in number, arrived in the seven o'clock train, were received by the Atlantics and escorted to Maenchinger's where they took supper. They were afterwards received at the Division rooms in the usual form, and the evening was passed with speeches and music. A collation was served before closing, which took place after midnight,—a rather *intemperate* temperance celebration. The guests left for Boston in the four o'clock train, this morning.

We understand that our musical friends are making some further effort for the benefit of Mr. Henshaw. The proceeds of the ball were not equal to their anticipations, and they wish to raise an additional sum for the purchase of a chair and to place him in comfortable circumstances to earn a livelihood. He is disabled, by paralysis, from his former vocation. We are assured that this is a real case for charity. Mr. H. may be found at his place, corner of Spring and Young Streets.

ALARM.—A false alarm was made, at nine o'clock last evening, by boys who started the cry of fire as the bells rang the hour.—The Department was promptly out, but its services were not needed.

NEW SHOREHAM.—The Block Island mail boat which left the Island at noon, yesterday, arrived here about sunset. She was prevented by the ice from coming to her dock and landed her passengers and mail at Long Wharf. A good deal of ice was seen on the passage. There have been many cases of sickness on the Island, this winter.

AN ONION STORY.—A lady of this city sent her Bridget to the cellar for some onions. Some time later, she heard the girl complaining that the onions were very hard. She thought they must be frozen. On looking over Bridget's shoulder, the lady discovered that she was peeling the gladiolus roots that had been stored in the cellar for the winter.

MARINE.—The Brig John Pierce, Bliss master from Cardenas has arrived at Charleston, S. C. where she will discharge cargo of molasses.

FUNERAL.—Engine Company No. 3 are called to attend in a body the funeral of their late comrade, Mr. W. H. Weaver, on Sunday at twelve o'clock, noon.

Literary Notices.

Cassell's Magazine for March, contains additional chapters of Poor Humanity and a number of other articles, several of which are illustrated. Cassell, Peter & Galpin, 596 Broadway, New York.

We call attention again to that excellent periodical for young people, The Little Corporal, published by Alfred L. Sewell, Chicago, at one dollar a year.

Littell's Living Age for March 7th, has articles on Queen Caroline, Gleanings after the Talmud, Part second of Mr. Gladstone on Ecce Homo, Tour of a Missionary Bishop, &c., &c. Littell & Gay, Boston.

Oliver Optic's Magazine (Lee & Shepard, Boston,) continues the Freaks of Fortune, Out on the Prairies, begins a new serial, The Shepherd and his Ram, and gives a variety of other matter.

BUSINESS IN THE COURT OF COMMON PLEAS.—The following statistics, furnished us by his Honor Judge Burgess, will give our readers some idea of the amount of judicial business pending before the Court of Common Pleas: Civil actions continued from former terms 195; original actions entered at the previous term, 107; continued civil appeals, 40; new civil appeals, 31; continued criminal appeals, 22; new criminal appeals, 10. In addition to these are some fifteen or twenty continued indictments, and the indictments to be reported by the grand jury now in session.

The epidemic prevailing among the prisoners confined in the jail will probably prevent the immediate trial of such indictments as the grand jury may return. The right of an immediate trial on the finding of a true bill, and the difficulty of granting it under the present circumstances, may necessitate the taking of a recess by the grand jury, or the adjournment of the Court for a short time. *Prov. Herald.*

A FELINE CURIOSITY.—Prof. Glover has recently added a new attraction to his museum in the Department of Agriculture, it being no less than a cat imported from Angora, Asia Minor, the famous goat region, and much resembling that animal, having a long and silky white fleece, with a long heavy tail. This is said to be one of the best of the cat species, being very domestic in habit and expert mousers. Enormous prices have been paid for this breed to be placed in museums of natural history, and by the nobility and savans of Europe, as pets. The cat now on exhibition is one of three imported by Hon. Israel S. Diehl, with a view to try the experiment of domesticating them in this country.

The Providence Press says that the depositors will lose nothing by the defalcation at the North Providence Bank, and that 80 per cent. of the capital stock will remain after paying all outstanding claims.

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE

WEDNESDAY, MARCH 4.

Senate.

The Senate met at 11 o'clock, His Excellency the Governor in the chair.

Mr. Church of Little Compton, from the Committee on the Militia, reported back the act in amendment of Title XXXIV., Chapter 232, of the Revised Statutes—"Of the Active Militia"—with an amendment.

During the discussion on this bill, His Excellency the Governor took the floor and made some statements in regard to the matter in which he expressed his disapprobation of this bill. He also disapproved of the ten company system which was proposed in the House. He wished to have the whole number of the companies retained, but to reduce each company to a minimum of 30 members, to reduce the number of non commissioned officers one half, and to leave the commissioned officers as they now are. This is the system adopted in the United States Regular Army during a time of peace, and makes every regiment a "skeleton regiment," capable of being expanded to the full number in any case of emergency, with small effort. Such a bill he was in favor of, and thought should be passed.

After a somewhat protracted debate, participated in by His Excellency the Governor, and Messrs. Currey, Grosvenor, Eddy, Smith, Anthony, Church, Stevens and others, and interspersed with repeated readings of the bill for the edification, on various points, of first one Senator and then another, the bill was, on motion, passed in concurrence as amended.

Mr. Hazard presented resolutions to pay the Hon. Wm. R. Staples six hundred dollars for preparing a History of the Adoption of the Federal Constitution by this State, which were read and adopted.

The matter of the Teachers Institute was taken up, and a resolution appropriating $500 per year for that purpose was adopted.

House of Representatives.

The House met at 10½ o'clock, the Speaker in the Chair.

Mr. Flagg, from the joint special committee on the Quartermaster's Department, made a report, which was received and ordered to be printed, and the committee were discharged from the further consideration of the subject.

The report is as follows:

To the Honorable General Assembly of the State of Rhode Island and Providence Plantations:

The special committee appointed by the Senate and House of Representatives to investigate the condition of affairs in the Quartermaster-General's Department, respectfully present the following report:

That they have made examination of the affairs of the Quartermaster General's Department and find bills uncertified to the amount of $2,214 99.

Upon examination we found overcharges and discrepancies that have been made since last October to the amount of $1,261, which have been made good by the parties interested. They further report there is a large amount of property,—some of which is on the Sea, in the Department belonging to the United States, and for which the State is responsible, which should either be returned to the government or sold. They show that other discrepancies may exist in said Department, and therefore recommend an audit and make a correct statement of all the affairs in the Department. It will require more time than the committee can give for them to be able to report to this General Assembly.

The following resolution accompanying the report was adopted:

Resolved, That the report of the joint Special Committee appointed to investigate the business of the office of Quartermaster General, be committed to a joint special committee, to consist of two members of the House, and such as the Senate may add, with directions to further investigate the affairs of said department, with the right to send for persons and papers, with liberty to sit in vacation and to employ a clerk, and with directions to report at the next May session of the General Assembly.

Mr. Colwell, from the Judiciary Committee, reported an Act with reference to mortgagee's sales at public auction. The act enables the mortgagee to bid on the property, the amount of his mortgage and interest and expenses incidental to the sale, and that operates as a conclusive foreclosure if he acts in good faith.

THURSDAY, March 5.

Senate.

The Senate met at 11 o'clock, His Excellency the Governor in the Chair.

Mr. Smith of Barrington, moved to reconsider the vote passed yesterday, by which the Senate concurred with the House in making an appropriation of $500 annually for the maintenance of the R. I. Institute of Instruction.

Senator Grosvenor advocated the passage of the motion, saying that it opened the way for similar appropriations for other organizations, and that this was the first demand of the kind made upon the State, and if granted, it would be a dangerous precedent.

Senators Hazard, Smith and Carpenter opposed the motion, urging that this Institute was of great practical value in the cause of education, and that the State could expend no money that would be of greater advantage to the entire population.

Senator Peckham thought the money should be appropriated for lectures in the different towns, so that the parents might be reached.

The motion to reconsider passed, and the matter was recommitted to the committee on education.

The resolution relative to claims of the State against the National Bank of North America, being the special order for the day, was taken up.

Mr. Currey said that questions of fact were best settled by a jury, and if the State had not a case which they were willing to try in open Court, they had better abandon the whole matter.

Mr. Grosvenor said that for two years the State Auditor had once in six months examined the check purporting to have been signed by him, and yet failed to detect the forgeries, and under such a state of facts the genuineness of the checks having thus been vouched for by the Auditor himself, no jury would give a verdict against the bank. And finally when the forgeries had been discovered, the Auditor threw out one check as a forgery, and the matter being disputed, the forger himself was called in, and he convinced the Auditor that the check was genuine. The negligence was not upon the part of the bank or its officers. He advocated the reference of the matter to three referees.

SENSIBLE DEMOCRATS.—The Tribune says this morning;

"The Democrats in the Ohio State Senate have planted themselves square against the eight hour system. On a proposition to make eight hours a legal day's work on the public roads, they voted unanimously against it. What has Congressman Carey to say to this?"

We do not know what "Congressman Carey" says to it; and remembering his notions about finance, we should say it matters very little what he thinks. But for ourselves, we should say the democrats in the Ohio Senate have done a very sensible act; and if the Republicans are wise, they will make haste to follow their example. To make eight hours a day's work is about as sensible, useful and possible as Jack Cade's proposition that seven half penny loaves should be sold for a penny. *Evening Post.*

The New York Times, in alluding to the inaction of the House in reference to Alaska, says "the American people will not permit this great purchase to be annulled, or the Star Spangled Banner to be hauled down in the vast territory over which it now waves."

INSTALLATION.—Rev. Edward O. Bartlett was installed as pastor of the Free Evangelical Congregational Church of Providence, Wednesday evening. The exercises took place in Roger Williams Hall, in the presence of a very good audience. Rev. H. A. Wales, of Elmwood, offered the invocation and read a selection from the Scriptures. An original hymn, composed by Rev. I. N. Tarbox, was sung by the congregation.

The sermon was preached by the Rev. S. R. Dennis, of the High Street Congregational Church. The Rev. Dwight K. Bartlett was previously announced as the preacher on the occasion, but was unavoidably detained. Mr. Dennen selected his text from the sixth verse of the third chapter of Acts: "Such as I have give I thee." The sermon was an eloquent exposition of the duty of each, pastor as well as people, to use their utmost efforts for the spread of Christ's Kingdom on earth.

The charge to the pastor was made by the Rev. C. R. S. Williams of Concord, Mass; the fellowship of the churches extended by Rev. Edward Root of Westerly, R. I., and the address to the people delivered by Rev. J. G. Vose, of the Beneficent Congregational Church. The exercises concluded with prayer, singing of the doxology, and the benediction pronounced by the new pastor.

GEN. SICKLES.—It appears that Gen. Sickles, or to use his rank in the regular service, Colonel Sickles of the 5th Infantry has been ordered to report, without delay, to Major General Hancock, and to take command of the 29th U. S. Infantry. There is on the surface nothing unusual about this order, but when it is reflected that Gen. S. is an excellent stump speaker and that he has been doing the republican party good service in the New Hampshire campaign, the reason for this action becomes evident. It is in fact, intimated that the President ordered this transfer of General Sickles at the special request of the democratic executive committee of New Hampshire.

Long Island Sound on Tuesday, for miles above Throg's Neck, presented the image of a polar sea—a vast snowy plain, jagged with jutting crests forced upward by the collision of ice-laden tides, and seeming to offer as little possibility to navigation as the solid land.

The catalogue of the Bangor, Maine, Theological Seminary has just been issued. It contains the names of 461 alumni and 105 students not graduated. Of these 131 are known to be deceased and 438 supposed to be living. The senior class has 21, the middle class 14, the junior class 4 and a resident Licentiates.

A Richmond correspondent mentions as a sign of progress in Virginia that nobody was amazed in the Convention the other day when a very black member called a page to him and sent to one of the leading white members for a "chaw of tobakker," which was courteously sent in the form of a ten cent plug. Black gentleman bit off a big quid and sent the remainder back.

MARRIED AGAIN.—The Mormon Prophet Brigham Young, has recently been married for the thirty-first time, his last victim being a daughter of an elder of the Mormon Church. The young woman is 28 years of age, and will take the place of honor in the prophet's household. The last wife but one, formerly a Miss Amelia Folsom, who was "married" to Brigham in the year 1863, and who has since reigned the sultana of his harem, must now give way to the latest fancy.

MARRIED.

In Tiverton, 1st inst., by Rev. Dr. Green, Mr. Henry Durfee and Miss Henrietta R., daughter of Richard B. Peckham, Esq., all of Tiverton.

In New Bedford, 4th inst., Manuel S. Avellar and Miss Indimbania A. Marcelo.

In Taunton, 2d inst., Morris Lincoln and Miss Julia A. Martin.

DIED.

In North Woodstock, Conn., 27th ult., Charles E. Davenport, aged 24 years.

This has passed from earth to heaven a youth of high abilities and rare virtues. When rebel hands were raised against our country, he promptly entered the ranks of the Union Army, in its defence. Midling forsook to a happy home and loving friends. Under our own Banner he fought, performed a soldier's duty, contracting disease from exposure, he returned with an honorable discharge. Entirely by his own honest integrity and worth he quickly won the confidence of the business portion of our people. Thus another sacrifice has been offered to a wicked rebellion. To his bereaved parents and friends this community offer sincere sympathy.

In Dartmouth, (Hixbsville), 5th inst., Mary, widow of the late David Briggs, aged 73 years, 3 months, 20 days.

In Providence, 5th inst., Mrs. Elizabeth L. Dennis, widow of Edward Dennis, of Portsmouth, in the 85th year of her age.

CHRONIC DISEASES, SCROFULA, ULCERS, &c.

It is well known that the benefits derived from drinking of the Congress, Saratoga, and other celebrated Springs is principally owing to the Iodine they contain.

Dr. Anders' Iodine Water

contains Iodine in the same pure state that it is found in these spring waters, but over 300 per cent. more in quantity, combining as it does 1 1-4 grains to each fluid ounce, dissolved in pure water, without a solvent, a discovery long sought for in this country and Europe, and is the best remedy in the world for Scrofula, Cancers, Salt Rheum, Ulcers, and all Chronic Diseases. Song of Iron.

I am mighty in the saber,
Fiercely wielded by the brave;
Glorious in the stalwart steamer,
Laughing at the storm and wave.

I'm serene in the palace pillars,
Saving in the pelting hail,
As it brings the deadly lightning
Quelled and harmless to the soil.

But there is a glorious service,
Where I take my greatest power,
Giving to the wasting nerve,
Sweetest aid, in danger's hour.

See! before me fly the pale!
See the darkness hides from view!
See the rose of health and beauty
Take the place of cheek and brow.

Fly, dyspepsia! fly consumption!
Yes, all ills are cushed at length!
For I give what human nature
Only ever needed—STRENGTH!

Shall I tell in what great essence
I can thus your spirits elevate?
Pallid, trembling, dying sufferer,
'Tis the famed "PERUVIAN SYRUP."

The PERUVIAN SYRUP is a protected solution of the Protoxide of Iron, a new discovery in medicine that strikes at the root of disease by supplying the blood with its vital principle or life element,—Iron.

The genuine has "PERUVIAN SYRUP" blown in the glass.

GRACE'S CELEBRATED SALVE.

From Mr. JAMES CURTIS, of AUBURN, MASS.

"I was afflicted with a severe felon on one of my fingers, and tried many remedies without relief. My friends advised me to apply your Salve. In two days it extracted the inflammation from my finger so as to enable me to resume my work. I can also say that the Salve worked like magic, for it effected a cure without causing a scar. I unhesitatingly pronounce *Grace's Salve* an excellent remedy, and I doubt it will be appreciated throughout the land."

The Crowning Triumph.

The Lamb Knitting Machine

Is designed especially for Family Use,

And for thoroughness of construction and superiority of execution is not excelled by any other machine. It has been awarded the

HIGHEST PREMIUM AT THE PARIS EXPOSITION.

Also, State and County Fairs throughout the United States.

It knits Hosiery of all kinds, forming the heel and shaping the toe. It turns up its own work, widens and narrows by varying the number of loops the same as in hand knitting. The loops being the same as made by hand, the fabric is equally durable.

It knits the fabric either tubular or flat, single, double, or ribbed, and in any desired shape, thus producing every variety of Staple and Fancy Knit Goods.

The extent and variety of its manufactures are only limited by the ingenuity of the person who tends it; while a child can operate it on plain knitting.

For other information and samples of work, address the manufacturers,

IN THE DISTRICT COURT OF THE UNITED STATES, *For the District of Rhode Island.*

NOTICE is hereby given that a petition has been filed by WM. W. HAZARD, of Newport, in said District, duly declared a Bankrupt under the Act of Congress of March 2d, 1867, for a discharge, and certificate thereof, from all debts and other claims provable under said Act, and that a hearing will be had thereon before J. M. CLARKE, Register in Bankruptcy, at office, No. 29 Weybosset street, on the 14th day of March next, at 10 o'clock, M., when and where you may attend and show cause, if any you have, why the prayer of said petition should not be granted.

And notice is hereby given that a Second Meeting of the Creditors of said Bankrupt will be held at a Court of Bankruptcy to be holden at the same place, before said Register on the 14th day of March, A. D. 1868, at 10 o'clock, A. M.

And notice is hereby given that a Third Meeting of the Creditors of said Bankrupt will be held at a Court of Bankruptcy to be holden at the same place, before said Register, on the 14th day of March, A. D. 1868, at 11 o'clock, A. M.

CHEAP CASH STORE.

C. G. HANDY & SON

WILL be ready and happy to exhibit on sale, to their friends and the public, their carefully selected NEW STOCK of DRY GOODS, on

MONDAY MORNING, 28th inst.

These Goods were selected and purchased the present week, by the senior partner, assisted by an experienced Mantua Maker, from the extensive assortment of Messrs. Alexander J. Stewart & Co., Broadway, Chambers, and Reade streets,—and from Manufacturers, Manufacturers' Agents, Importers and Jobbers, and at Auction Sales in New York.

And in calling your attention to an examination this Stock we would say, that Dry Goods have been purchased the present week at wholesale, at from 10 to 25 per cent. less than at any previous time for the past six years; consequently, you have reason to expect GREAT BARGAINS, and will not be disappointed, as our motto is "large sales (for Cash at the counter) and small profits."

We are confident, if you will call and look at the Goods before purchasing elsewhere, which we shall be too happy to show, whether you purchase or not, you will be tempted either to purchase or advertise us, as we claim to be the

NEW YORK & BOSTON CHEAP CASH STORE.

Weekly additions will be made to our stock of such goods as are desirable. Personal attention given to the purchases and sales of them, and we confidently expect to change our whole stock every fortnight, the benefit being to the purchaser and proprietors mutual.

NEW JERSEY.

NEW YORK, March 5.

INDIAN TROUBLES IN MONTANA.

ST. LOUIS, March 5.

The Montana papers report that the Blackfeet Indians have inaugurated their yearly raid, and are infesting the Fort Benton road, between Kennedy's ranche and Gun river. They have already killed one man and run off a hundred head of horses, besides creating a panic among the settlers in the neighborhood. Wells, Fargo & Co.'s coaches were fired upon by the Indians several times. Dispatches to Gov. Smith, from Col. Sernsniz, state that Kennedy's ranche, 25 miles from Helena, was burned by the Indians, and that Mrs. Kennedy, with her children, were captured and carried off by the savages.

The Omaha Republican learns from a reliable source, that about twelve hundred Indians have gathered around Fort Lawrence, and are conducting themselves in a threatening and insolent manner. They have already commenced depredations on the stock in that vicinity.

—o—

FROM THE WEST INDIES.

A Havana special dated the 4th says: The Spanish Mail steamer from Cadiz arrived at St. Johns, Porto Rico, Saturday. She brings troops for the Spanish man of war Africa, which is watching ship Alice Ball, at St. Thomas. The Alice Ball is taking aboard a cargo of war material from the ship Sarah Newman, for Valparaiso.

Breadstuffs are wanted; business is reviving.

A subterranean cable has arrived to connect the hotels.

Hall, the American recently sentenced for killing Murray at Cienfuegos, has had his punishment commuted to three year's imprisonment in the arsenal at Sagua.

Thomas Booze has been fined $200 for every package received in his care as Consul. The case has been referred to the consideration of Captain General Lersundi.

Washington Evening News.

—o—

Washington speculation is rife as to the probable defence the President will make to the articles of impeachment, and some positive statement of the grounds and legal points that he has determined upon have been telegraphed hence. There is, however, the best authority for saying that such statements are not true, and that Mr. Johnson has not made known to any one what will be the character of his defence.

The Senate Committee called a special meeting this evening and considered the letter from the Chief Justice. The members unanimously agreed to adhere to their view of the case, and resolved to consider Mr. Conkling's speech as a proper reply to Chief Justice Chase. They are clearly of the opinion that the Senate has the right to frame its own rules and regulations, and that he has not the legal right to decide any of the questions involved. In all the impeachment trials in England, which are the precedents to govern the case, the Lord High Steward never had a right to vote unless when he was a member of the House of Lords. The Senate, therefore, holds that the Chief Justice cannot have any voice in deciding any questions which may be raised on the trial.

PRICE ADVANCED—PAR & INTEREST

THE

Central Pacific Railroad

THE EAST AND PRINCIPAL PORTION OF THE

National Trunk Line Across the Continent

is being rapidly carried forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $3,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $27,000,000 on the first 736 miles of the Line, including Loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results already attained, although under comparatively unfavorable circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive, and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale, a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and Interest Payable in Gold Coin,

in sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of *safety, reliability and profit*, in a greater degree than any other class of Corporate Securities now offered, and are therefore very desirable for steady investments of surplus capital.

Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest engagements.

III. The hard part of the work is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, 37,000 acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly

NINE PER CENT. UPON THE INVESTMENT.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest, with the principal abundantly secured, and of realizing a profit of from ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

COOKING BY STEAM!

H. L. DUNCKLEE'S FULTON STEAMER! Copyright Secured. A Great Revolution in Cooking. A Meal of 8 or 10 varieties Cooked over one hole of a Stove or Range in half the time it can be done by any other process.

Puddings, Cakes, or Bread cooked at the same time, over Meats, Poultry, Potatoes, Cabbages, Turnips, Beets, and Onions, without partaking of the flavor of these vegetables.

This apparatus condenses its own Steam, after having done its work, and all the juices and flavor concentrated in the lower vessel makes a delicious soup by the addition of a little seasoning.

This Steamer has the advantage over all others, by having each part made so it can be detached and cleaned of all impurities or deposits arising from cooking. A single Bunsell Burner will do the work of a $30 stove. An examination of this apparatus will convince any one of the superiority over all others. For sale by

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife, the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove," Sole agent in Newport,

Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books, which that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., (not of which, it not all, contain Mercury, because of the earliest belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., as the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, what nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "unsuspecting" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and needlessly spend large amounts for experiments with quackery.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

—to—

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition, the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humors or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of vicid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial tube into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from those diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a description of these diseases.

Out of the many thousands of testimonials received we publish the following:

DR. C. L. BLOOD,—

DEAR SIR:—I choose to give you my testimony regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon the suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.

No. 199 Westminster Street, Providence.

DR. C. L. BLOOD,—

MY DEAR SIR:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

REV. R. TOMLINSON.

THIS Company hereby gives notice that they have this day appointed HENRY N. WARD, Esq., their Agent for Newport and vicinity. This Company offers superior advantages to parties desiring Insurance on Dwellings or Household Furniture, as the entire business is now confined strictly to that class of risks. The Company adopted this system January 1st, 1867, and have not, as yet, lost a dollar on the plan, and have now a large percentage of the premiums on hand, giving promise of a large return in dividends at the expiration of the policies. Parties, before insuring, will find for their interest to call on our Agent at No. 193 1-2 Thames street, Newport, R. I., and ascertain for themselves the great advantages offered by this Company.

Something New.

THE GREAT AMERICAN TEA COMPANY OUTDONE.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one hundred pound papers of English Breakfast, Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

These are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.
